The image displays two screenshots related to the LEMP application hosting project.

The top screenshot shows a web browser at the URL `http://13.201.22.255`. The page displays the "Welcome to nginx!" message, indicating that the nginx web server is successfully installed and working. It also provides information about online documentation and support, referring to nginx.org and nginx.com.

The bottom screenshot shows a terminal window with the following commands and output:

The bottom screenshot shows the AWS Management Console interface for the "nexhost-db" database instance. The instance is a MySQL Community Edition instance, running on the "ap-south-1" region. The console displays the instance's status as "Available" and provides links to view connection details, modify settings, and delete the instance. The console also shows the instance's configuration, including the engine, instance class, and storage type.
